

Clinic 1 H-Brace Steel Treatment Table

Discover the cost-effective solution for patient care with the Clinic 1 Steel Frame Treatment Table, providing superior comfort, an adjustable backrest, and sturdy construction at a budget-friendly price.

Standard Features

Powder-coated all-steel frame protects against scratches and has a smooth finish

H-Brace frame offers a clean look and solid base

Easy to clean design with a seamless rounded corner top

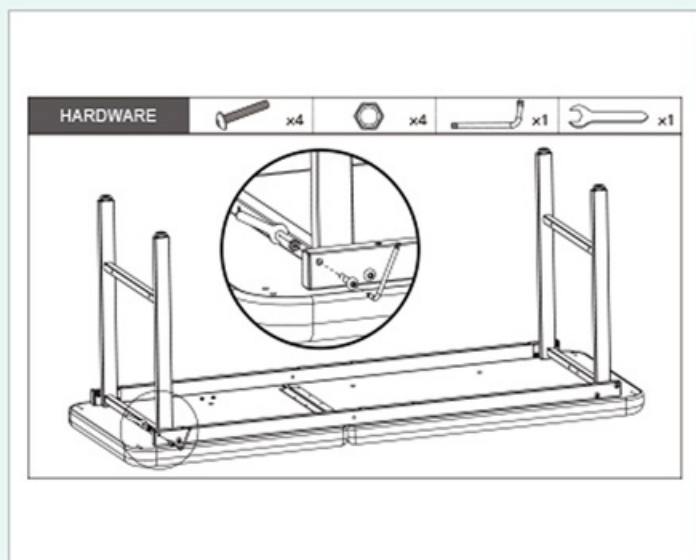

2" firm foam padding (5cm) increases patient comfort during treatment

Paper dispenser is included and holds 21" rolls

500lbs load capacity (227kg) safely accommodates most patients

Easy to assemble table requires minimal tools

Adjustable leg levelers give the table stability on uneven floors

Adjustable backrest has 6 settings (60°, 55°, 50°, 43°, 36° & 27°) allowing for various patient positions such as reclining or laying down.

(Clinic1-0001, 0011, 0021, 2011)
